

# Windrow Inverter

# 6096

**Invert or merge your windrows of hay completely while minimizing leaf loss**

## **Not just a merger...**

Dion's windrow inverter does more than just merge windrows, it replaces tedding and swathing. On the first pass, the swath is moved on a dry ground and turned completely to expose the moist side. The sun takes care of the drying. A second pass allows the swath to dry completely and puts the dry hay where needed.

## **Smooth Work**

The pick-up lifts the windrow smoothly without picking up any soil or rock. The conveyor belt maintains the integrity of the swath while the disk turns it and lays it softly on the ground.

## **Quick and Energy Efficient**

Dion's windrow inverter is ground driven, has no P.T.O., no hydraulics and requires little power. The mechanism engages automatically when the pick-up is lowered. The operational speed can vary from 7.5-11 mph (12-18 km/h).

## **Specifications**

Height: 5'3" (160 cm)	Pick-up width: 5' (152 cm)
Width: 9'4" (285 cm)	Swath Size: 21.5 - 48 ft <sup>2</sup> (2 - 4.5 m <sup>2</sup> )
Length: 16'10" (512 cm)	Operating speed: 2 - 8 mph (3 - 13 km/h)
Disc: 8' (244 cm)	Transport speed: 20 mph (32 km/h)
Weight: 1984 lb (900 kg)	Tires: terra type: 23 x 8.50 - 12 nhs

## **Advantages**

- Minimal loss of leaves
- Hay placed in windrows such that the tractor never circulates over it
- Automatic and hydraulically controlled engaging/disengaging system
- Maximizes the quality and quantity of your forage
- Merging of 2 windrows without leaving hay on the ground
- Ground driven (no PTO required)
- Easy and safe operation
- Minimum maintenance

Option of 1 or 2 gathering wheels. Each wheel increases the effective width of the pick-up head by 12" (30 cm).

# Your best choice for harvesting equipment since 1920

Dion's products have over 95 years of service to farmers.

Today Dion is at the forefront in the conception, design and manufacturing of agricultural equipment. Our rotary, row independent, corn heads for pull-type forage harvesters are just one of our products putting industry leading technology within the reach of everyone.

Our vision of modern, efficient & performance oriented equipment allows us to see a promising future filled with quality products like you've come to expect from the Dion brand
